Data management

Background data management
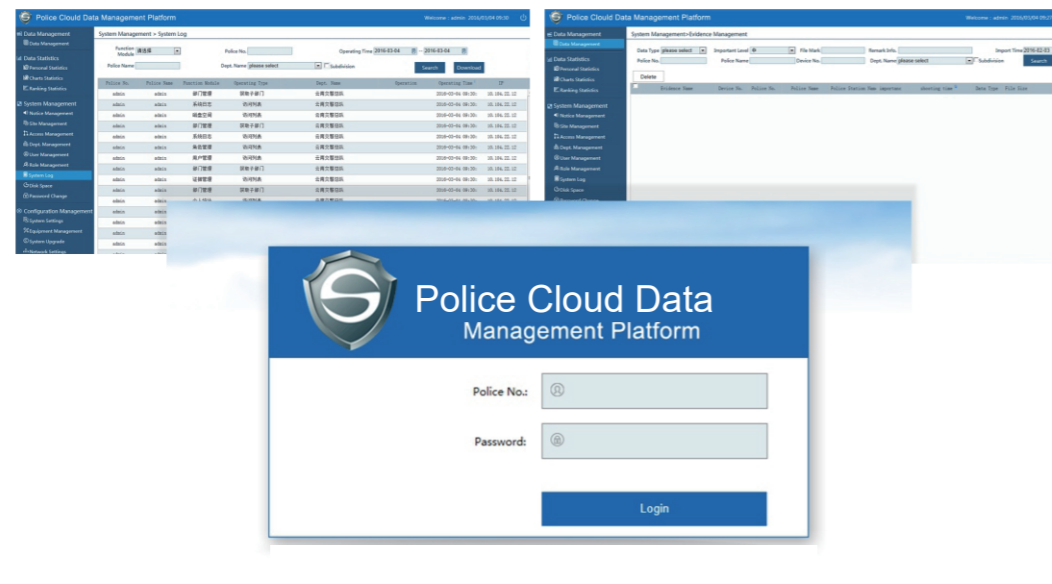

Authorized person

High level management person

Data Acquisition Station

- Multiple devices simultaneously access
- Equipment management,and local data inquiry
- Remote data inquiry,playback and data download
- Can be mounted on any flat surface
- Auto data emptying

- Important photo issued
- Strong compatibility
- Software update
- Auto data importing
- Auto recognition

Cloud data mgmt terminal

BWC

Cloud data mgmt platform

Police Law Enforcement System Total Solution

Body Worn Camera

- Professional image processing system
- Professional high-level protection grade
- Professional IR night vision function
- Precision optical wide angle lens
- Convenient one-click operation
- Multi- Factor data protection
- Multifunctional Base
- Humanized wear mode
